

*AB INITIO* POTENTIAL ENERGY SURFACES FOR  $\text{H}_5^+$  AND  $\text{CH}_5^+$

JOEL M. BOWMAN, ZHEN XIE, ZHONG JIN and BASTIAAN BRAAMS, *Department of Chemistry and  
Cherry L. Emerson Center for Scientific Computation, Emory University, Atlanta, GA 30322.*

I will describe new *ab initio* potential energy surfaces for  $\text{H}_5^+$  and  $\text{CH}_5^+$  and present some results of vibrational and scattering calculations using these surfaces.
