

Bell Mountain and Wet Beaver Creek

Drive south on 179 past I-17 but not past ranger station. Dirt road to trail turns off to left, north of ranch. Should be a sign on the road.

Follow Bell Mountain trail along and above Beaver Creek for about 3 miles until you reach pool area. Cross the creek and climb along trail to rim for overview (about 1000 foot climb.)

On return, cross back over creek but turn left and continue along at creek level for a short distance, then cross creek again and continue until red cliff bars your way and you need to cross over creek again. Continue along this side of creek bushwhacking as needed until you reach dam across the creek and join the Weir trail. Continue along this trail until it rejoins the Bell trail and turn left to return to car.
