

CHEMISTRY 1220 – SUMMER 2018

DR. ZELLMER: MIDTERM - TEST FORM A

Your scan sheet must be completed using a PENCIL only.

Fill your Scan Sheet in with the following items. Use the picture below as a guide:

- I.D. NUMBER:** Starting in the first column, write AND bubble in your 9 digit OSU ID #.
- NAME:** Write AND bubble in your last name, first name, and middle initial; each separated with one blank space.
- TEST FORM:** You have **Test Form A**. Bubble in "A" in the Test Form category. This is extremely important! If you leave this column blank, your exam cannot be scored.
- SIGNATURE:** Sign the scan sheet in the vertical space provided below "SUBJ SCORE".
- SUBJ SCORE:** Find your lab session day, time, and TA name from the cover page of the exam, and locate your section number. Write AND bubble the section number in the three columns provided.
- Please do not fill in any additional information on your Scantron sheet including "Phone Number", "Code"

The image shows a ParSCORE™ STUDENT ENROLLMENT SHEET. It includes sections for I.D. NUMBER, PHONE NUMBER, LAST NAME, FIRST NAME, M.I., CODE, TEST FORM, and SUBJ SCORE. The form is filled out with example data: I.D. NUMBER 200155555, LAST NAME CURIE, FIRST NAME MARIE, M.I. S, CODE A, TEST FORM A, and SUBJ SCORE 007. The form also includes a signature line and a date line. Numbered callouts 1 through 5 point to the I.D. NUMBER, NAME, TEST FORM, SIGNATURE, and SUBJ SCORE sections respectively.

Failing to properly bubble in your OSU ID #, or your Test Form, will delay your official exam score result from being posted on Carmen.
